

SET UP AND TAKE DOWN

10 seconds set up
10 seconds take down
Unsurpassed holding power

CONTACT

1. DRILL

Hold drill with both hands, drill all the way down.
Use only the Airkipp® drill bit for a correct fit.

2. INSERT

Fold the bottom uninflated gate in two and insert it into the hole to the printed white line, decal facing downhill.

3. INFLATE

The Airkipp® iPack inflation system will turn off automatically. Add 3-4 seconds of additional air to the gates for high level racing to make a stiffer gate for increased speed. Eliminates the need for cross blocking or shinning.

4. DEFLATE

Release the top valve and the gate will deflate for easy removal from the snow.

5. EXTRACT

After you remove the gates from the snow ...

6. ROLL UP

... immediately roll them up and place them into the supplied duffel bag. 20 iGates fit neatly into the bag and will stay rolled up, ready for the next use.

ALL FUN - NO PAIN
safe no-pain inflatable slalom gates

skiline.cc presents

AIRKIPP® iGate STARTER KIT

Your Race course in a bag.

The Starter-Kit includes:

- Airkipp® Charger
- Airkipp® iPack inflation system with auto OFF and additional remote ON/OFF button
- Airkipp® Drill bit
- 5 yellow* inflatable Airkipp® iGates
- 5 blue* inflatable Airkipp® iGates
- Modified Back Pack
- Duffle bag
- high visibility Fluorescent*

Pack your iPack inflation system and the Airkipp® iGate drill bit into the backpack with some folded iGates (you can also take the supplied duffle bag - 20 iGates fit neatly into it). Attach the required

fill hose to the iPack already inside the backpack. Drill the holes for iGates with the required custom Airkipp® iGate drill bit and set up your course.

Airkipp® iPack INFLATION SYSTEM

Attach the required fill hose to the iPack. Turn ON the power switch. You are now ready to use the inflation system.

INFLATABLE GATES

5 yellow* inflatable Airkipp® iGates, 5 blue* inflatable Airkipp® iGates (high visibility Fluorescent*)

CHARGER

A charger is supplied with the iPack. Once charged you will have enough power to charge over 200 iGates.

DRILL BIT

Use only this custom drill bit to ensure correct hold in the snow.

DUFFLE BAG

20 iGates fit neatly into the supplied duffle bag and will stay rolled up, ready for the next use.

BACKPACK

Modified Back Pack
